Moves Cursor Right

Display Configuration

1. Press the **EDIT** button and input the days (DDDD) you would like to count up or count down from and press the **ENTER** button.

DDDD

DDDD = Days saved on display

2. Input the current hours (HH) in a 24 hour format and press the **ENTER** button.

1 - HH

HH = Hours saved on display

3. Input the current minutes (MM) press the **ENTER** button.

2 - MM

MM = Minutes saved on display

4. Input the current Seconds (SS) press the **ENTER** button.

3 - SS

SS = Seconds saved on display

5. The display will show the entered number of days. Select whether you would like to count up or down by pressing the **Up or Down Timer 1 arrow** (See remote description on previous page) to complete the configuration of your display.

Note: An LED will blink on and off on the bottom right of the display when it is timing up or down.
