# Display Configuration

## To set the value on the display:

1. Point the Infrared Remote (IR) towards the front right of the display and press the **EDIT** button on the remote.
2. Input the desired numeric value to replace the blinking digit on the display.
3. Press **ENTER** button on the remote to save the values entered.

## To turn ON a alarm for when the display reaches zero:

1. Point the Infrared Remote (IR) towards the front right of the display and press the **SETUP** button on the remote until **ON** is briefly displayed in the DAYS section of the display.

## To turn OFF a alarm for when the display reaches zero:

1. Point the Infrared Remote (IR) towards the front right of the display and press the **SETUP** button on the remote until **OFF** is briefly displayed in the DAYS section of the display.

## Start Timing:

- To begin Timing UP, press the **Up arrow** in the TIMER section of the remote
- To begin Timing DOWN, press the **Down arrow** in the TIMER section of the remote

## Stop Timing:

- To stop timing, press the **STOP** button

## Display Notes:

- Display only times up or down when the display is turned **ON**.
- The battery for the infrared remote is a CR2025
